SUMMARY

Junior .NET Backend Developer and fresh graduate with a IT degree and real project experience building REST APIs and web applications using ASP.NET Core and C#. Familiar with Clean Architecture, SOLID principles, SQL Server, and Docker. Quick learner and comfortable working in Agile teams.

EDUCATION

Bachelor of Computer and Information Technology

2022 – 2026

The Egyptian E-Learning University | Egypt | Grade: Very Good | Graduation Project: Excellent

EXPERIENCE

Full Stack .NET Web Developer Intern

Jun 2025 – Dec 2025

Digital Egypt Pioneers Initiative (DEPI)

Egypt – Hybrid

- Built RESTful APIs and MVC applications with ASP.NET Core and C#.
- Applied Clean Architecture, Dependency Injection, and Repository Pattern.
- Used Git and Azure DevOps for version control and Agile sprint tracking.

Software Development Intern

Jun 2024 – Aug 2024

Banque Misr

Cairo, Egypt

- Worked in a Scrum team with sprint planning, stand-ups, and code reviews.
- Built responsive UI components using Angular and Bootstrap.

Network Engineering Intern (CCNA)

Aug 2024 – Sep 2024

National Telecommunication Institute (NTI)

Remote

- Trained in networking fundamentals, TCP/IP, and cybersecurity basics.
- Configured OSPF, VLANs, and Firewall rules in lab environments.

PROJECTS

Torostack – AI-Powered Competitive Programming Platform

Graduation Project

- Built a microservices-based online judge using ASP.NET Core and Docker.
- Integrated AI feedback to help users improve their submitted solutions.
- Used async messaging for real-time updates across services.
- **Stack:** ASP.NET Core, C#, React, SQL Server, Docker, REST API

Podcasty – Podcast Upload and Sharing Platform

DEPI Project

- Developed a platform for uploading, managing, and streaming audio content.
- Built a REST API backend with ASP.NET Core and JWT authentication.
- Created a responsive React frontend with audio playback support.
- **Stack:** ASP.NET Core, C#, React, SQL Server, JWT, REST API

ChatApp – Real-Time Messaging Application

- Built real-time chat backend using Singleton, Factory, and Observer patterns.
- Optimized for low latency and concurrent user handling.

TECHNICAL SKILLS

- **Languages:** C#, SQL, JavaScript, C++, Java, Python
- **Backend:** ASP.NET Core, REST API, MVC, Microservices, Entity Framework Core, Dependency Injection
- **Database:** SQL Server, T-SQL, Database Design, Query Optimization
- **Tools:** Docker, Git, GitHub, Azure DevOps
- **Concepts:** OOP, SOLID, Clean Architecture, Design Patterns, Agile, Scrum

ACHIEVEMENTS

- Solved **300+ problems** on Codeforces – strong algorithmic and problem-solving skills.
- Participated in the **Egyptian Collegiate Programming Contest (ECPC) 2025**.
